Hi Nicole -- thanks for checking into this site for me. Here's some additional information from DTSC that went out as a Community Update that has DTSC's contact info for the site. As you can see, there appears to be a lot of misinformation on the part of the public about the site and distrust that DTSC has done an appropriate and complete cleanup.

Thanks again for your help!

Steven

Hi Steven-

I will see whether this site shows up in our database and whether we've done any work on it. It would be helpful to know what group at DTSC worked on this project so we can touch base with them. I don't think doing a PA is going to get this community what they are looking for, so we should try to get out in front of this before we get a petition. Thanks.

Hi Steven!

Nicole Moutoux (copied on this message) is the section chief for our Site Assessment group. She can check to see if we did a PA/SI on this already, or if we know the State's activities at the site. There is a formal process to request a PA, but it doesn't go through the RA. I believe it goes through Nicole's group. It's how we did the Tern Island PA.

Rusty

Hey Rusty – you’re always my go-to for figuring out who in Superfund to talk to about a site. A community member in Riverside gave me a whole stack of documents on a site in the City of Riverside, called Ag Park. Apparently this was a former military base (USArmy Camp Anza) that has been owned by the city since 1963. The site had PCB contamination (there was a sewage treatment plant built and operated by the Army in 1942, run by a private utility from 1947-1963, acquired by the City in 1963 and operated by the City until 1965). DTSC completed a two phase cleanup of the site in 2014 and the City is moving forward with a residential development on the site. The community is not convinced that the site has been cleaned up completely and there appears to be a campaign to petition EPA Region 9 to perform a preliminary assessment and ranking for the NPL ... the community is being asked to write to Jared with this request.

Who ... ye who know who’s who in Superfund ... should I be talking to about this?

Thanks!

Slj
